Dr Calvin Chien is an Orthopaedic Surgeon with a subspecialty interest in shoulder, elbow and knee surgery as well as in orthopaedic trauma.

Dr Chien graduated from the University of New South Wales Medical School in 2004 and then completed the orthopaedic surgical training on the NSW Northside Training Program, gaining admission to the Fellowship of the Royal Australasian College of Surgeons and the Fellowship of the Australian Orthopaedic Association.

Throughout the whole training Dr Chien developed subspecialty skills in shoulder, elbow, hip and knee surgery. Post fellowship, Dr Chien also gained further experience internationally.

Dr Chien utilises patient match instrumentation for Total Knee Replacement and Total Shoulder Replacement.
