Dr Clement Tsang is an upper gastrointestinal laparoscopic and bariatric surgeon, with a primary interest in advanced laparoscopic (keyhole) surgery. He specialises in hernia, gall bladder and weight loss surgery, including gastric balloon, gastric banding, sleeve gastrectomy and gastric bypass procedures. Dr Tsang also offers abdominoplasty, arm and thigh lift surgery, breast augmentation and breast reduction/lift surgery and liposuction.

Graduated from University of Sydney in '98, Dr Tsang entered into the field of general surgery with specific interest in minimally invasive techniques. Dr Tsang's surgical training took place at Sydney's Royal North Shore and St Vincent's Hospitals, then further afield in hospitals in South East Asia.

Over his career he has been trained in plastics, breast, thyroid, vascular, colorectal, gastric and esophageal cancer surgery. He held master degree in surgery. Dr Tsang now focus on weight loss and cosmetic surgery after weight loss as complete care.
