Sydney surgeon and educator, Dr Ruben Cohen-Hallaleh specialises in breast, endocrine, and general surgery.

He brings together the latest in surgical techniques and non-invasive treatments with a careful consideration for each patient and their unique circumstance. Dr Ruben Cohen-Hallaleh specializes in general surgery and oncoplastic breast surgery. Dr Cohen-Hallaleh specializes in clinic-based cryoablation treatment for destroying fibroadenomas as an alternative to surgery. Cryoablation uses extreme cold to completely destroy the fibroadenoma and is performed under local anaesthetic. This means: NO general anaesthetic, NO scars, NO post-operative pain. Dr Ruben Cohen-hallaleh uses Crisalix 3D software that helps in patients visualising their breast reconstructions.
